The High Point Urban Area MPO (HPMPO) has officially begun a 30-day public comment period for its draft 2030 Long-Range Transportation Plan (LRTP). The LRTP is a blueprint to guide the High Point Urban Area's transportation development over a 25-year period. Updated every three years to reflect changing conditions and new planning principles, the draft 2030 LRTP looks at major urban transportation planning issues such as environmental/air quality; complete access to transportation; alternative transportation modes (i.e., bicycle and pedestrian); and highway traffic congestion. Also included is the Conformity Analysis Report, which successfully determines that the HPMPO is in conformity with the applicable North Carolina State Implementation Plan (SIP) for air quality in its adoption of a Transportation Improvement Program (TIP), Long-Range Transportation Plan, and any pertinent amendments or updates.

The public review/comment period for the draft 2030 LRTP will commence on July 8, 2004. Comments must be received on or before August 13, 2004 to be considered for the 2030 LRTP. The LRTP will be presented to the HPMPO Transportation Advisory Committee (TAC) for adoption on August 24, 2004.

Please provide all comments in written format. All comments should be sent to Andy Grzyski, MPO Coordinator, High Point MPO, P.O. Box 230, High Point, NC 27261 or by e-mail at [LRTP@hpdot.net](mailto:LRTP@hpdot.net). All comments, except those provided at the August 24th Public Hearing, must be received by 5:00 p.m. on August 13, 2004 to be

considered.
